THE CS20 CART FROM CASSESE

is an air operated underpinner (v-nailer) really easy to use. Its various patented technical features makes it one of the best underpinner on the market.

The CS20 CART can join high and wide mouldings while ensuring a perfect joining quality thanks to the double action horizontal clamps.

The aluminium structure and stainless steel working table ensure robustness and longevity of the machine.

The CS20 CART uses Cassese cartridge wedges, recognized today as the best on the market and allowing you to load the machine faster.
