PRECISION CUTTING & DOWEL DRILLING

MORSØ - EFG

Miter Machine E, Future Green

Fully automatic, electric

No Dust - No compressor needed

100% Noiseless - For the green eco-friendly production

- ▼ Dust free operation
- ▼ No compressor needed
- ▼ Exact 45° degree cut
- ▼ No Noise

MORSØ-E Future Green is a fully automatic, electric miter machine with a dual hand release. This makes the machine absolutely safe to operate as it is impossible to start the machine and touch the knives at the same time.

With MORSØ-E Future Green you achieve a clean, smooth cut as the workpiece is automatically cut twice as long as both push buttons are activated at the same time. The cutting time varies from 1 second and up, depending on the thickness of the workpiece. Having finished the cutting, the knife block automatically returns to the starting position.

The starting position is horizontally adjustable up to 60 mm (2.4"). Maximum width of the workpiece is 100 mm (4"). From a 60 mm (2.4") width, the MORSØ-E Future Green will automatically cut the workpiece bit by bit. The variable starting position is adjusted by a handle.

The vertical movement of the knives is also adjustable with three different heights. One for small workpieces, a second for medium-sized workpieces and a third for very thick workpieces (up to 180 mm / 7").

TECHNICAL DATA

SUBJECT	SPECIFICATION
Double miter	45°
Single Miter up to	90°
Cutting width max.	100 mm (4")
Cutting height max	180 mm (7")
Measuring scale up to	1,500 mm (60")
Motor three phase	0,55 kW
Net weight	135 kilos (298 lbs)

MORSØ-E Future Green is excellent for repetitive work, as it:

- is faster than a double miter saw
 - leaves no dust behind
 - makes no noise except for when the workpiece is cut
 - cuts an exact and perfect 45° miter
-

MORSØ-E Future Green is delivered with:

- dual hand release
 - safety guard
 - sliding longitudinal stop
 - a second stop
 - measuring scale up to 1.500 mm (60")
 - waste chute
 - extension table on the left side
 - adjustable fences
 - adjustable and automatic rebate support
 - adjustable hydraulic clamping cylinders
-

ACCESSORIES:

- manually operated digital measuring system up to 6,000 mm / 240"
- deeper rabbet supports up to 70 mm - 2¾"
- roller infeed tables
- wooden blade box for Morso blades
